

Induction Hob

NZ64H57477K/EE

Sliding Control

Enjoy effortless control of your cooking using the Sliding Control panel. Simply touch and glide your finger across the panel to instantly and precisely set or adjust the cooking temperature.

Child Lock

Enjoy complete peace of mind and keep little hands away from danger. Samsung hobs are childproof with an electronic safety lock to prevent the hobs from being used accidentally.

Keep Warm

With Samsung's unique Keep Warm function you never have to worry about pans boiling over. It provides a convenient way to keep food warm, as it brings the temperature up and then just simmers along, so it's ideal for making stocks, stews or curries.

Flex Zone

Now you can evenly cook with large pots and pans without having to worry about heat distribution. The FlexCook Zone enables bridging of two elements (or use each element separately), creating an unbelievably large cooking surface that gives you that flexible meal option.

Pause

With the pause function you can leave the hob at any time. A simple press on the pause button and the hob sets a low heat level, enough to keep the food at work. When you come back, you press the button again and you resume the previous settings.

Timer

An integrated egg timer, for your convenience. Up to 99 min.

Quick Stop

Avoid painful and messy accidents with the Quick Stop hob function. With the simple touch of your finger you can instantly turn off burners to stop pots from boiling over or pans from burning.
