Handy Force

Car Holder

Features:

- Dashboard mount
- Residue-free adhesive mount
- MAG4 magnetic technology, enabling a safe, strong, simple and steady magnetic hold
- The adhesive metallic plate (two available, small white, large black) can be placed either on the back of the phone, inside its case or in the battery cover.

Compatibility:

Smartphones and mobile phones

Description:

Handy Force is the brand new car holder by Cellularline with the exclusive MAG4 magnetic technology.

It is mounted on the dashboard thanks to a residue-free adhesive base.

Safe – No interference with phones: the configuration of the magnet aims the magnetic power on the metal plate without passing through it.

Strong – It holds firmly even the largest phone.

Simple – Setting a phone for MAG4 usage is just a matter of applying the metallic plate directly on the phone or placing it between the phone and its cover.

Steady – It enables a full integration between the car holder and the car itself.
