

The clear choice for clean

The Neato D8 comes with the signature Neato quality and D-shape design you've come to expect from our robot vacuums. Using LaserSmart technology, the Neato D8 cleans even in the dark (and under furniture). The choice is clear—Neato cleans your home when you want, how you want, and reaches where round robots can't.

THE D-SHAPE ADVANTAGE

You can't use circles to clean a square corner. That's why Neato introduced the D-shape design to the industry more than 15 years ago. That D-shape allows for a brush right at the edge of our vacuum, instead of in between wheels like those round robots. The result? The widest brush and largest dirt bin in the robot vacuum industry so you can reach corner-to-corner and edge-to-edge for a more complete clean.

POWERFUL & EFFICIENT

With a runtime of up to 90 minutes* and a High-Performance filter that captures up to 99.5% of allergens and fine dust particles*, the Neato D8 comes with energy-saving Eco mode for general vacuuming and peak-performance Turbo mode for those areas that need a more powerful clean.

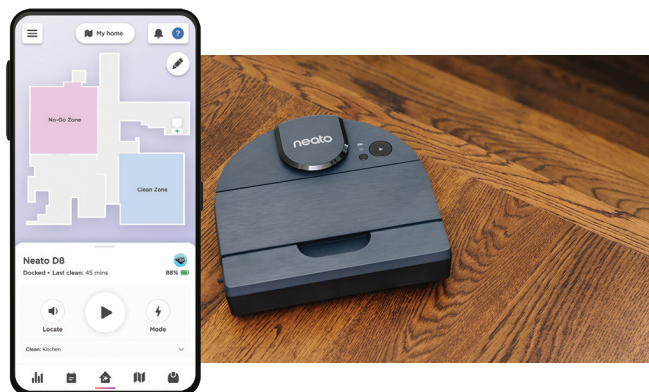

LASERSMART NAVIGATION

Neato's intelligent robot vacuums use LaserSmart technology powered by LIDAR to map** and navigate your home, even in the dark (and under furniture). Neato uses lasers to understand where it is in your home, and if your robot runs low on battery, it can pause cleaning to go back to the charge base to Auto-recharge & resume right where it left off once it has enough power.

Worried about stairs? There's no need to be with Neato. LaserSmart technology lets your robot learn what to stay away from (like stairs or drops in the floor) when you complete your first map, and continues to learn as you use it. You don't have to babysit your robot while it's cleaning—with Neato, you can just let it run.

HASSLE-FREE SETUP

Get cleaning in minutes with Neato's hassle-free, Bluetooth-enabled setup. Using the MyNeato app, create virtual Zones to manage where Neato cleans—and where it doesn't.** It's an experience that makes Neato the clear choice for clean.

Specifications

D8

WEIGHT

Robot: 3.7 kg
Base station: 0.5 kg
Package: 5.5 kg

DIMENSIONS (L X W X H)

Robot: 33 cm x 34 cm x 10 cm
Base station: 8 cm x 17 cm x 11 cm
Package: 45 cm x 45 cm x 16 cm

DIRT BIN CAPACITY

0.7 liter

BATTERY

2100mAh 14.4V lithium-ion

BATTERY RUNTIME

Up to 90 minutes*

BATTERY CHARGE TIME

Auto-recharge & resume: Auto-recharges mid-clean, and returns to where it left off to finish the job

Full charge: Up to 100 minutes depending on charging conditions

BRUSHES

Spiral Combo Brush (11", 28 cm)
Side Brush

FILTER

High-Performance E11 filter captures up to 99.5% of allergens (as small as 10 microns)*

CONNECTIVITY

Bluetooth setup for easy Wi-Fi connection
2.4GHz Wi-Fi

Box contents

- Neato D8 Intelligent Robot Vacuum with lithium-ion battery and Spiral Combo Brush (11", 28 cm)
- Slimline Charge Base
- Power cord (6', 2 m)
- High-Performance filters (2 extra)
- Brush Cleaning Tool
- Side Brush

Features

VACUUM FEATURES

- Indigo finish
- Polished turret
- LIDAR mapping and navigation**
- Info button with voice-based responses provides robot status and error notifications
- 3 drop sensors

CHARGE BASE FEATURES

- 30% slimmer than previous generation
- Improved cable management
- Removable foot pads for base stability
- LED indicator
- Power adapter with replaceable duct heads

APP FEATURES

- New app and UI
- Post-cleaning coverage map
- Cleaning history
- Zones designate areas to clean, and where Neato should stay away**

CLEANING OPTIONS

- Schedule cleaning
- Whole house cleaning
- Single-Zone cleaning**
- Eco mode
- Turbo mode
- Extra Care navigation**

*Tested in internal labs
