

Simple, electrical - eBBQ!
Barbecue for indoor and outdoor.

PG 8566 Grill with stand & stainless steel grill rack

The USP:

- **plug-and-grill** – Fast grilling enjoyment thanks to short heating-up times - indoor & outdoor
- **no risk of burns** – SafeTouch housing eliminates the danger of burns on all surfaces
- **high-quality grill rack** made of stainless for perfect grilling
- **easy cleaning** due to the modular structure and many removable parts

Details

Modular construction:

Many parts are removable and because of this the whole BBQ is easy to clean

Compact table grill

Quickly heated up and flexible to use - indoor and outdoor. The grill is easy to remove from the stand without additional assembly work.

Water in the reflector cup

For easier cleaning, against grease fire and for reduced smoke formation. The bowl has a capacity of 1,3 l.

Easy handling

Temperature range can be easily set using the rotary control. The temperature is controlled via the LED ring between blue and red

Description for Onlineshops

Simple, electrical - eBBQ: Barbecue for indoors and outdoors with the PG 8560 table grill

No matter whether spring, summer, autumn or winter - with this eBBQ table grill you can conjure up juicy food on the dining table all year round! Thanks to the continuous heating spiral, the table grill has an even heat distribution and, when the grill pan is filled with water, ensures little smoke and odor, ideal for use directly at the table or outside.

Stand with storage tray

This barbecue grill is the ideal solution for use as a table and stand grill. With the stand base with storage grate, the practical table grill housing becomes a stand grill that can be used well on the balcony or in the garden.

For indoor and outdoor use

Barbecue fun for indoor and outdoor - Use the versatile table grill optimally for the preparation of delicious food. In addition to the stainless steel grill rack, the rapid heating and high temperatures in particular speak for this practical table grill.

Thermostat controlled heating element

In order to prepare juicy grilled food, it is important to be able to set the ideal temperature. The thermostatically controlled heating element and the temperature controller as well as the continuous heating spiral are available for this.

Easy assembly

This grill impresses with its quick and easy assembly and disassembly and is therefore not only quick to use, but also easy to clean.
