

S8+

Forget about cleaning, Really

DuoRoller Brush

All-new dual rubber brushes DuoRoller enhance vacuuming by effectively removing dirt with fewer tangles* and easily sweeping away hair.

*Based on internal testing carried out by the manufacturer. Compared with Roborock S7.

6000Pa* Extreme Suction

Improved HyperForce® suction of 6000Pa means that your robot vacuum can suck up all dirt and dust, effortlessly reaching even the smallest particles.

Based on internal testing carried out by the manufacturer according to IEC 62885-2:2016 / 5.8 standards, using Max+ mode with a full battery. Actual results may vary according to the home environment.

VibraRise® Mopping System

Experience the power of sonic* vibration technology that scrubs with consistent pressure to leave floors gleaming.

3000 times/min High-speed Scrubbing

> 6N Mop Pressure

5mm Mop Lifting

*Based on internal testing carried out by the manufacturer. The term relates to the integrated mop module being able to be driven to produce high-speed reciprocating vibration of up to 3000 times/min, level up to a frequency of 50Hz which is within a "sonic" range (20 to 20,000Hz).

Level Up Carpet Cleaning

Carpet cleaning is a breeze with Roborock Carpet Boost+ system that'll leave your carpet mess-free from pet hair to bread crumbs.

Step 1

Identify the carpet

Step 2

Lift up the mop

Step 3

Increase suction power, Clean the carpet effectively with DuoRoller Brush

Reactive 3D Obstacle Avoidance

With 3D structured light and infrared imaging, the robot vacuum identifies and avoids potential hazards for a worry-free cleaning experience.

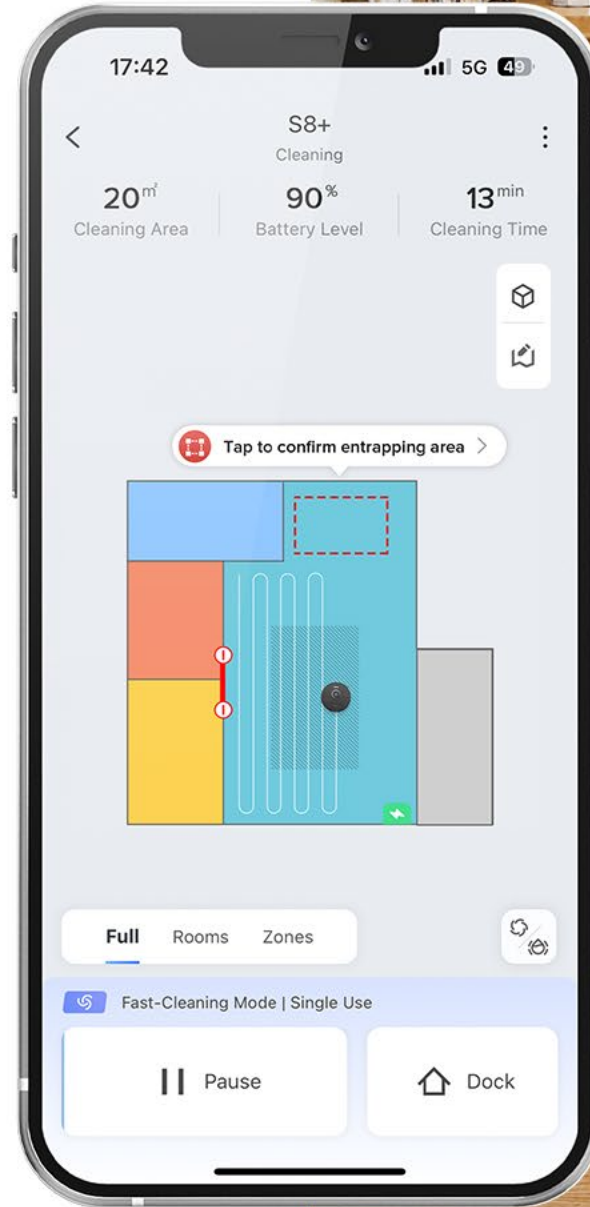

PreciSense® LiDAR Navigation

PreciSense® LiDAR Navigation system scans and creates detailed maps to find an optimal route to clean, leaving dirt with no escape.

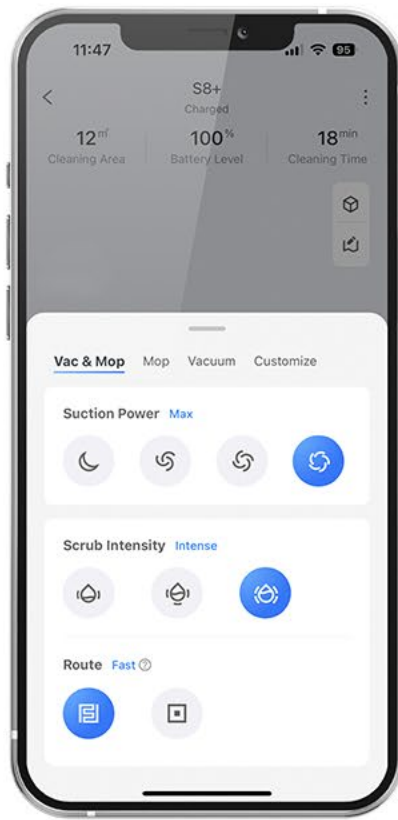

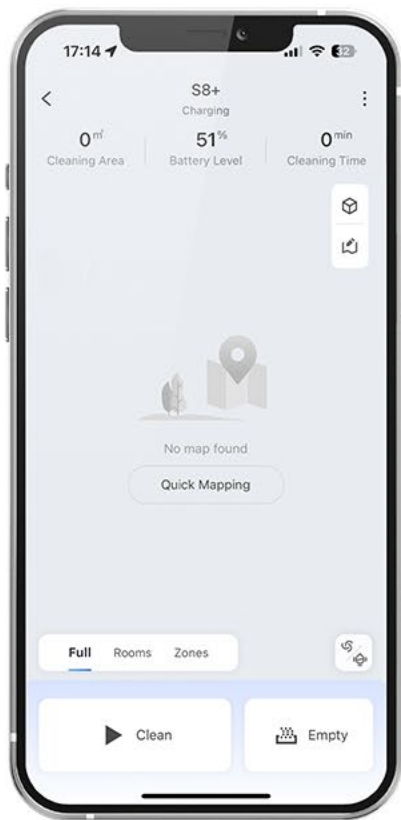

Smart Suggestions for No-Go-Zones

Auto detects easy-to-get-stuck places and suggests No-Go Zones. Draw Invisible Walls to block certain areas in the Roborock App.

Map Quicker, Clean Faster

Your robot vacuum can create a map up to 6 times* faster before the first task for fast and effective cleaning and can clean your daily area faster.

3D Mapping

3D Map allows you to accurately build your house and add furniture virtually to create a detailed map of your house, ensuring the best possible clean.

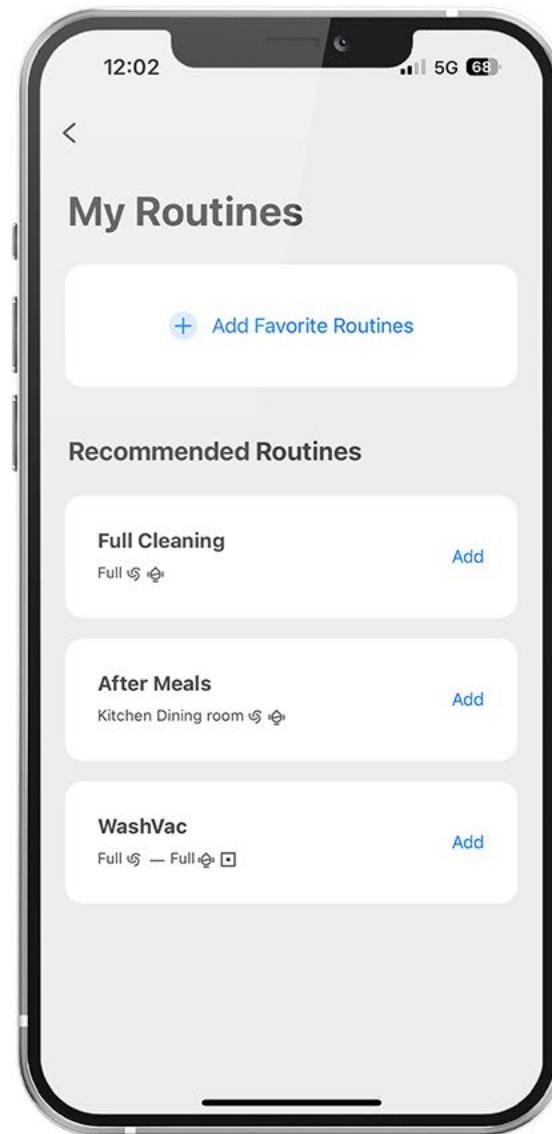

Multi-level Mapping System

Have a house with more than one floor? Multi-level mapping automatically recognizes distinct levels of your home. All you have to do is put the robot down. Up to four floors supported.

Custom Cleaning Routines

Decide when the robot vacuum cleans with custom cleaning schedules and set routines for particular areas in the house regularly or on demand.

Off-Peak Charging

You can choose off-peak times to charge to save on power as well as costs of using peak time electricity.

Self-Emptying

Auto empties dust and dirt into the E12-Rated 2.5L dust bag, which has a self-sealed design, after each cleanup, for up to 7 weeks* without changing.

E12-Rated Dust bag

2.5L Capacity

7 Weeks

*Based on internal testing. Actual emptying interval will depend on use habits and environmental factors.

Efficiency Filtration Certified by SGS

The dust bag is also an effective air filter, tested to filter 99.7%* of pollen as small as 0.3 microns, to keep your air clean and pollen free.

Performance Tested

Filtration Efficiency

- ✓ Pollen >99.7%
- ✓ Cat Allergen >98.2%
- ✓ Dog Allergen >98.3%
- ✓ Dust Mites Allergen >98.1%

*Based on testing carried out by an independent lab according to ISO/TS 11155-1-2001 and PT-22-000-100650 standards.
