

## Cool Control 0.6 l

### Optimum cooling for perfect results

Coffee creations with milk and milk foam are hugely popular. For perfect results, they need milk that is chilled to 4 °C. The Cool Control with its dishwasher-safe stainless steel container is really easy to fill and keeps the milk at the ideal temperature for the whole day. In this way, the Cool Control 0.6 l ensures freshness, hygiene and perfect results every time.

### Ideal use of space

The elegant design of the Cool Control allows it to be used in locations where space is limited. The innovative, slimline milk cooler will fit into any environment, even small kitchenettes, thanks to its compact dimensions.

### Elegant design

The Cool Control reflects the classic JURA look. Premium materials, a cover made of high-quality 1.5 mm thick stainless steel and elegant ventilation slots accentuate the Cool Control's design. With its clean, minimalist lines, the Cool Control 0.6l harmonises with any JURA coffee machine.

### The perfect addition to your JURA coffee machine

The wireless\* communication between the Cool Control and the automatic coffee machine and the integrated level indicator ensure that the user is always reminded when the cooler needs to be topped up with milk.

*\*When used with the Wi-Fi Connect (available as an option) the Cool Control is compatible with all JURA automatic speciality coffee machines that are equipped with Wi-Fi Connect. By using the Wireless Transmitter (available as an option) the Cool Control is compatible with all JURA automatic speciality coffee machines that are equipped with Smart Connect.*

### Maximum convenience

The Cool Control is easy to operate and offers maximum convenience. Milk can be added quickly and easily without needing to remove the milk container. The digital temperature display and precisely fitting cover ensure easy handling. The integrated Peltier cooling element ensures that the milk is kept at a temperature of 4 °C, providing the optimum conditions for perfect speciality coffees with milk and milk foam. The stainless steel milk container, metal tube and adapter are also dishwasher-safe for easy cleaning.
