

D5305 - Rose Shimmer Hairdryer

Product summary:

Get your shine on with the Remington Rose Shimmer Hairdryer. Not only does it have a sleek design and elegant, eye-catching finish, it has plenty of features to keep your hair flyaway free as it dries. The hairdryer is specially designed to release 90% more* ions in its airflow, eliminating frizz-causing static to promote a smoother, shinier-looking finish. Its powerful 2200W is on par with professional hairdryers delivering a salon standard output for faster drying. 3 heat and 2 speed settings put you in control so you can switch the speed or temperature up or down to achieve the best results for your hair type. A fast dry concentrator attachment is ideal for teasing lift at the root or smoothing straighter styles, while the detachable diffuser is perfect for adding body and enhancing your curl's natural shape. With plenty of fast-drying action inside a lightweight user-friendly design, the Remington Rose Shimmer Hairdryer is just what you need for everyday style on the go.

Paper summary:

Get ready to go with the sleek and stylish Remington Rose Shimmer hairdryer designed with ionic conditioning to release 90% more* ions in its airflow, helping to reduce static and frizz. It's packed with all the features you need for a smoother-looking finish whatever your hair type.

Key Feature 1: Ionic conditioning with 90% more* ions

Enjoy the hair you've always wanted with a Remington Rose Shimmer Hairdryer. The ceramic grille distributes millions of ions in its airflow, helping to reduce static and frizz for a smoother, shinier-looking finish.

Key Feature 2: Powerful 2200W with 110km/h airflow

Enjoy professional results in your own home with a salon standard output and faster airflow.

Key Feature 3: Lightweight design

Using a lighter weight hair dryer puts less pressure on your wrist and arm while blow-drying making everyday styling feel easier and more comfortable.

Key Feature 4: 3 heat and 2 speed settings

Whatever your hair type, with 3 heat and 2 speed settings you'll find the best temperature and speed combination to achieve the best results for you.

Standard Feature: Fast dry concentrator

A fast dry concentrator helps to disperse air across larger sections of hair for faster blow-drying results.

Standard Feature: Diffuser

If your hair has a natural wave or curl, a diffuser will gently disperse air around your curls to achieve a more natural-looking result with fewer flyaways.

Standard Feature: Cool shot

Every professional stylist knows that giving each section of freshly blow-dried hair a final blast on the cool shot setting helps to fix your style in place.

Standard Feature: Hang-up loop

Kommenterad [OC1]: This makes more sense than the above.

Kommenterad [PA2R1]: @Skelton_Grace @Howarth_Natasha happy to replace with the above if you agree

Kommenterad [SG3R1]: @Page_Ailish this doesn't make sense to me I would replace with 'helping to reduce static and frizz'

Conveniently store your dryer when it's not in use to keep your dresser and drawers tidy - and to ensure your hairdryer is close to hand whenever you need it.

Standard Feature: Removable easy clean rear grille

Keep your hairdryer dust-free and clean by simply clicking off the rear grille and gently dusting with a clean cloth or soft, dry brush.

Standard Feature: 3+1-year guarantee**

Rest assured, your hairdryer comes with a **3+1-Year Guarantee***, plus when you register online within 28 days, you can get it extended for an extra year*
