

S6077 – Remington ONE Straight & Curl Styler
EVERY HAIR. EVERYWHERE. EVERYONE.

Collection Summary:

Remington ONE is our new collection of multi-purpose styling tools that deliver both convenience and performance. Whether you are drying, styling, trimming or shaving, we have the ONE tool for you. EVERY HAIR. EVERYWHERE. EVERYONE.

Product Summary:

Why have multiple stylers when you can just have ONE? The **Remington ONE Straight & Curl Styler** lets you create beachy waves, bouncy curls, and smooth straight styles with just one tool. Safely and easily switch between **Straight Mode** and **Curl Mode** by sliding and clicking the **FlexiCovers** into position. A selection of digitally controlled heat settings put you in complete control, and it even has its own luxury storage pouch that's ideal for travelling too.

Paper Summary

The **Remington ONE Straight & Curl Styler** is a high performance straightener and curling wand in ONE tool, giving you the flexibility to create beachy waves, bouncy curls and smooth straight styles. It features advanced, anti-static, ceramic-coated straightening plates, anti-slip curling barrel, a choice of up to 5 heat settings and a heat-resistant storage pouch.

Key Feature 1: 2-in-1 Straightener and Curling Wand

The **Remington ONE Straight & Curl Styler** gives you the convenience of two powerful styling tools in ONE to create your signature straight and curly styles.

Key Feature 2: Easily Switch from Straight Mode to Curl Mode with the FlexiCovers

Slide the covers up, away from the handle and release the barrel lock, to put the styler in **Straight Mode**, heating up the straightening plates. Lock the plates together and slide the covers down towards the handle until you hear the click to reveal the 32mm curling barrel, automatically activating **Curl Mode**.

Key Feature 3: Straight Mode - Longer Length Straightening Plates with Advanced Ceramic Coating

The 110mm straightening plates are longer than a standard straightener to capture more hair in each pass for fast one-pass straightening results. The anti-static tourmaline-infused ceramic coating is 3x smoother*, to effortlessly glide through your hair without snagging. The smooth curves of the **FlexiCovers** are also ideal for creating bouncy curls with the straightener plates.

Key Feature 4: Curl mode - 32mm Curling Barrel and Anti-Slip Coating

In **Curl Mode** you can use the **Barrel/Plate Lock** to secure the straightening arms together and transform your styler into a round curling wand. The larger barrel will form soft, beachy waves with plenty of movement and the **Anti-Slip Ceramic Coating** helps to hold your hair in place as you curl, for long-lasting results.

Standard Feature: Digital Temperature Control

With up to 5 temperature settings you're always in complete control of your style. Simply select from temperatures between 150-230°C for straightening and 150-210°C for curling, tailoring the heat to your personal hair type or texture.

Standard Feature: Barrel/Plate Lock

In **Straight Mode** the Barrel/Plate Lock will keep the straightener plates together for safe storage, simply release the lock and switch on the product to begin straightening. When switching to **Curl Mode**, engaging the Barrel/Plate lock will lock the plates together to create the 32mm curling barrel.

Standard Feature: Ultra-Fast Heat Up

We know you have places to go and don't want to wait around for your styler to heat up which is why the Remington ONE Straight & Curl Styler is ready to use in just 20 seconds.

Standard Feature: Easy Grip Cool Tip

The cool tip with easy grip contours gives you more control over your style when you're in straightening mode and keeps your fingers safe from the heat.

Standard Feature: Automatic Safety Shut-Off

When you know your styler will switch off automatically after 60 minutes, it gives you a little extra peace of mind.

Standard Feature: Swivel Cord

A swivel cord means you're less restricted and gives you extra freedom when styling.

Standard Feature: Worldwide Voltage

Designed to work with mains voltages of 110–120v and 220-240v, so you can take your styler with you anywhere in the world. (NB: You will still require a suitable plug adapter for each country you visit).

Standard Feature: Styling glove and luxury storage pouch with heat-resistant lining

Keep your hands safe from the heat with the styling glove, Plus, the premium pouch has a heat-resistant lining that doubles as a heat mat, to protect your surfaces when in use. When you have finished styling you can neatly store your styler and take it with you on your travels.

Standard Feature: 3+1 Year Guarantee

Rest assured, your straightener comes with a **3+1-Year Guarantee****, plus when you register online within 28 days, you can get it extended for an extra year**
