Russell Hobbs Satisfry Air Medium – Yes you can

+++++

**Product summary**

Enjoy carefree cooking that'll save you time and energy in the kitchen with the Russell Hobbs Satisfry Medium. Easy touch screen controls and 10 pre-set programmes allow you to make a wide range of dishes with no fuss, or mess. While air fry technology circulates temperatures up to 220 °C – with little or no oil required. So, if you think cooking from scratch can be time-consuming and messy, think again! With a dishwasher safe\*\* fry basket and crisping plate, the Russell Hobbs Satisfry Medium is a fast, convenient and tasty way for all the family to enjoy the meals and snacks they love.

+++++

**Paper summary**

Save time and energy with the Russell Hobbs Satisfry Medium. With 10 pre-set cooking programmes, air fry technology and dishwasher safe\*\* parts, mealtimes are delicious and easy – with minimum clean up required afterwards!

+++++

**Key features**

**4 Litre capacity**

The Satisfry Air Medium has a generous 4L capacity, which is large enough to hold a maximum 800g capacity of chips. 500g is recommended for best browning results.

**Energy saving**

Saves up to 46% energy compared to a conventional oven.

**Shake reminder**

The shake reminder is an alarm that sounds halfway through the cooking cycle, for foods like chips and nuggets that need a shake for that delicious, crispy crunch.

**Air fry technology**

Air fry technology circulates super-heated air at high speed, with temperatures up to 220 °C.

**10 pre-set food programmes**

Whatever's on your menu, 10 pre-set functions allow you to select specific programmes for different food types: French fries, eggs, chicken, vegetables, air fry, bake, grill, dehydrate, cook from frozen and reheat. This means you'll enjoy your favourites just how you like them!

### **Intuitive digital touchscreen display**

The touchscreen display helps you to stay in control of your cooking, from setting the temperature to programming the cooking method. It's easy to wipe clean too.

### **Dishwasher safe parts**

The removable non-stick coated fry basket and crisping plate are dishwasher safe\*\* and can be removed after every use, for ease of cleaning in the sink or dishwasher.

### **Timer with auto shut-off**

Set the timer for up to 60 minutes at a time on most programs and manual settings, and up to 24 hours on the dehydrate programme. If you leave the appliance switched on when you've finished using it, it automatically shuts off after 20 seconds.

### **Variable temperature control**

Set to the correct temperature for the food you're cooking. For example, starchy foods may need to cook at higher temperatures than delicate foods. Being able to manage the temperature puts you in control.
