

Easy to clean

Easy to use

Automatic power-off

CKB1902S Coffee maker

- Standard size
- Permanent filter
- Automatic power-off

The coffee maker for easy brewing

With this coffee maker, you can effortlessly brew your favourite coffee with ease and convenience. The permanent filter removes the need for disposable filters, making every brew simple and cost-effective. Designed for easy use, the intuitive controls ensure a smooth brewing process, while the streamlined design makes cleaning hassle-free. Whether you are preparing your morning coffee or serving guests, this coffee maker provides a reliable and enjoyable experience every time.

Stress-free and safe coffee brewing

The automatic power-off function keeps your coffee warm and ensures safe operation by switching off the coffee maker after a set time. There is no need to turn it off manually – the built-in safety feature prevents overheating and conserves energy. Simply brew your coffee, enjoy it at the ideal temperature, and let the coffee maker take care of the rest for a hassle-free experience.
