

# VERTUO POP

## MINIMALIST IS THE NEW MONUMENTAL

### Add a touch of colour to your life with the Nespresso Vertuo Pop machine.

Bursting in a range of six vibrant colours, from Spicy Red to Pacific Blue, Vertuo Pop makes a bold statement to match your style. With four cup sizes, from Espressos to Mugs, simply choose your **Nespresso** pod, pop it in, and you're away at the touch of a button.

To keep you spinning, the machine reads the code in each pod to reveal its hidden treasures, from aroma to crema. Always connected, Vertuo Pop updates automatically, ensuring you get a smooth and consistent coffee experience. And to reduce its impact on the planet, it is made from 35% recycled plastic. For a coffee journey, with a pop.

#### Four cups, for every fancy

A single elegant machine. 4 coffee cup sizes at your fingertips. From classic Coffee (230 mL/7.77 oz) and balanced Gran Lungo (150 mL/5.07 oz) to intense single (40 mL/1.35 oz) or double (80 mL/2.7 oz) Espresso. Sealed in single-serve coffee pods for a fresh brew, from field to cup.

#### Centrifusion™ extraction technology

Vertuo coffee makers use a patented extraction technology developed by Nespresso known as Centrifusion™ technology. Just insert a pod and close the lever — when activated, the pod spins up to 4,000 rotations per minute, blending ground coffee with water and producing the perfect *crema* to enjoy your favorite long coffee or authentic Espresso.

#### To each blend, its coffee

Brewed coffee now also means tailored coffee with the Vertuo Pop machine. Nespresso's smart extraction system recognises your selected Vertuo coffee pod from the code on its rim, and automatically adjusts the brewing parameters accordingly. To help fully reveal the treasures nestled in each coffee pod. There's no need to change settings. Simply press the single button and enjoy every brew.

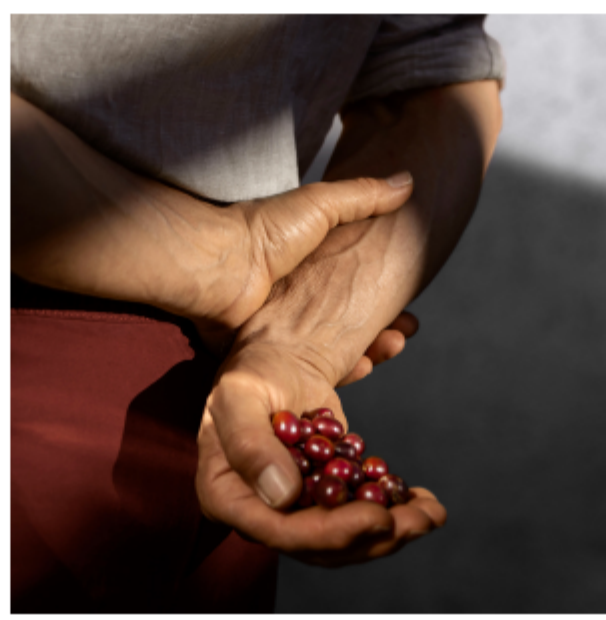

#### Simple, one-touch brewing

Create exceptional long coffee or authentic Espresso at the touch of a single button. The pod is automatically ejected after brewing. To accommodate different cup sizes, the cup support is adjustable to three positions or can be removed completely.

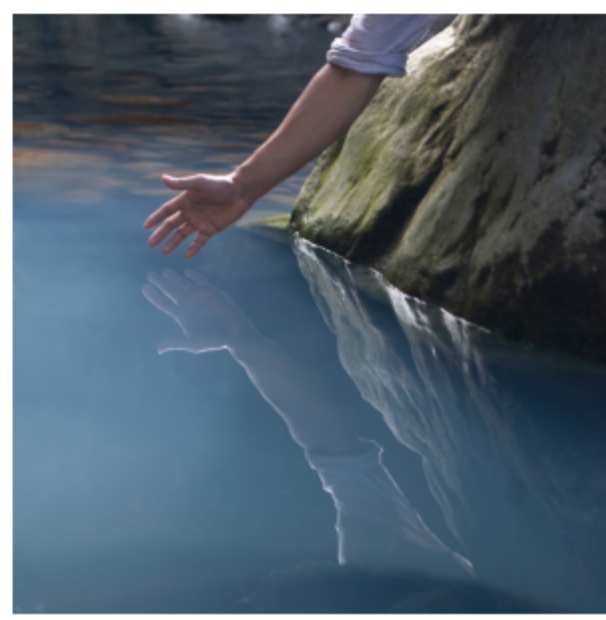

#### With every cup

We cultivate some of the finest coffee in the world that preserves our best of our world. With human care and creativity.

#### Commitment that bears fruit

Through our AAA Sustainable Quality™ Program, we pay above market prices for coffee, and invest in social programs such as pensions and insurance, to ensure coffee farming is a profitable business for future generations.

#### Doing is everything

We commit that by 2022 your cup of Nespresso will be fully carbon neutral. We are continuing to reduce the footprint of each cup and are expanding tree planting in and around coffee farms to compensate the remaining emissions of a cup of Nespresso with our NGO partners Rainforest Alliance and PUR Project.

#### How to order your pods?

You can easily order your coffee for delivery to the address of your choice.  
**Internet:** Place your orders easily at [nespresso.com](https://www.nespresso.com), 24/7.  
**Phone 24/7:** Contact our Coffee Specialists 24/7.  
**Nespresso on Mobile:** Download our apps available on iPhone, iPad and Android.  
**Boutiques:** Visit your nearest Nespresso Boutique.

#### Machine Assistance

In case you need assistance for your machine, call Nespresso. You will receive an immediate technical diagnosis and a solution to your problem. If your Nespresso machine needs repairing during the guarantee period, Nespresso will collect your machine and will deliver you a loan machine, free of charge.

#### Coffee Varieties

Nespresso offers a wide variety of Coffees to satisfy every taste at any moment of the day. All Nespresso Coffees can also be enjoyed with milk or milk froth to create a variety of different recipes such as Cappuccinos, Lattes and Macchiatos.

#### Recycling

Nespresso offers complimentary recycling services to all of its customers. Recycle your used coffee pods at your nearest Nespresso boutique or drop off at a Recycling Collection Point.
