

Consistent, even cooking every time

The 500 SurroundCook® Oven comes with a hot air fan that circulates the air more effectively than a conventional oven, so your food is always evenly cooked without having to turn the tray or dish.

Product Benefits & Features

More even heat throughout the oven with Multilevel Cooking

Multilevel Cooking adds third heating element to enable you to bake evenly on multiple levels. Perfect for creating three trays of cookies or pies at the same time.

Touch display for easy access and full control

Easily set your oven and track cooking progress with the intuitive LED display EXPlore+ Touch. The screen shows function, time, temperature and status, while the touch buttons provide quick access to pre-programmed cooking functions.

Pyrolytic Cleaning. The self-cleaning function

Using high temperature, the Pyrolytic Cleaning function turns grease and food residue into ash – so you can easily wipe it off with a damp cloth.

The Soft-Closing Door quietly makes a statement about quality

The Soft Closing and Opening Door system is effortless to the touch and operates smoothly and silently and soundlessly. A premium feel every time you use the oven.

Quick and effective, Even Cooking

Our Even Cooking system circulates heat throughout the oven, making sure everything is cooked evenly. All without the need to turn your dish. Our technology means your oven heats up faster saving you time and energy.

- Multifunctional oven with ring heating element
- Touch control
- Soft Closing
- Cooling fan
- Door lock
- Telescopic runners TR1LV, Wood screws included
- Accessories included: 1 Dripping pan grey enamel, 2 Cake tray grey enamel, 1 Wire shelf chromed
- Catalytic converter

Product Specification
