

Consistent, even cooking every time

The 500 SurroundCook® Oven comes with a hot air fan that circulates the air more effectively than a conventional oven, so your food is always evenly cooked without having to turn the tray or dish.

Product Benefits & Features

More even heat throughout the oven with Multilevel Cooking

Multilevel Cooking adds third heating element to enable you to bake evenly on multiple levels. Perfect for creating three trays of cookies or pies at the same time.

Pyrolytic Cleaning. The self-cleaning function

Using high temperature, the Pyrolytic Cleaning function turns grease and food residue into ash – so you can easily wipe it off with a damp cloth.

Touch display for easy access and full control

Easily set your oven and track cooking progress with the intuitive LED display EXPLore+ Touch. The screen shows function, time, temperature and status, while the touch buttons provide quick access to pre-programmed cooking functions.

Grill function. For faster browning and grilling

Perfect for toasts or crispy dishes, the Grill function is faster than traditional grilling and browning.

- Multifunctional oven with ring heating element
- Touch control
- 1 pyrolytic cleaning program
- Cleaning reminder
- Fast oven heat up function
- Electronic temperature regulation
- VarioGuide
- Automatic temperature proposal
- Automatic safety switch off oven function
- Residual heat indication
- Cooling fan
- Child Lock safety function for control panel
- Door lock
- Telescopic runners TR1LV, Wood screws included
- Accessories included: 1 Cake tray grey enamel, 1 Dripping pan grey enamel, 1 Wire shelf chromed
- Catalytic converter

Product Specification

Main colour	Black
Cleaning main oven	Pyrolytic
Energy efficiency class	A+
