CDM2455V Slim dishwasher

- 45 cm wide - narrow dimension
- 10 place settings capacity
- 7 wash programmes
- Delayed start up to 24 hours
- Child safety lock

A slim dishwasher built for modern living

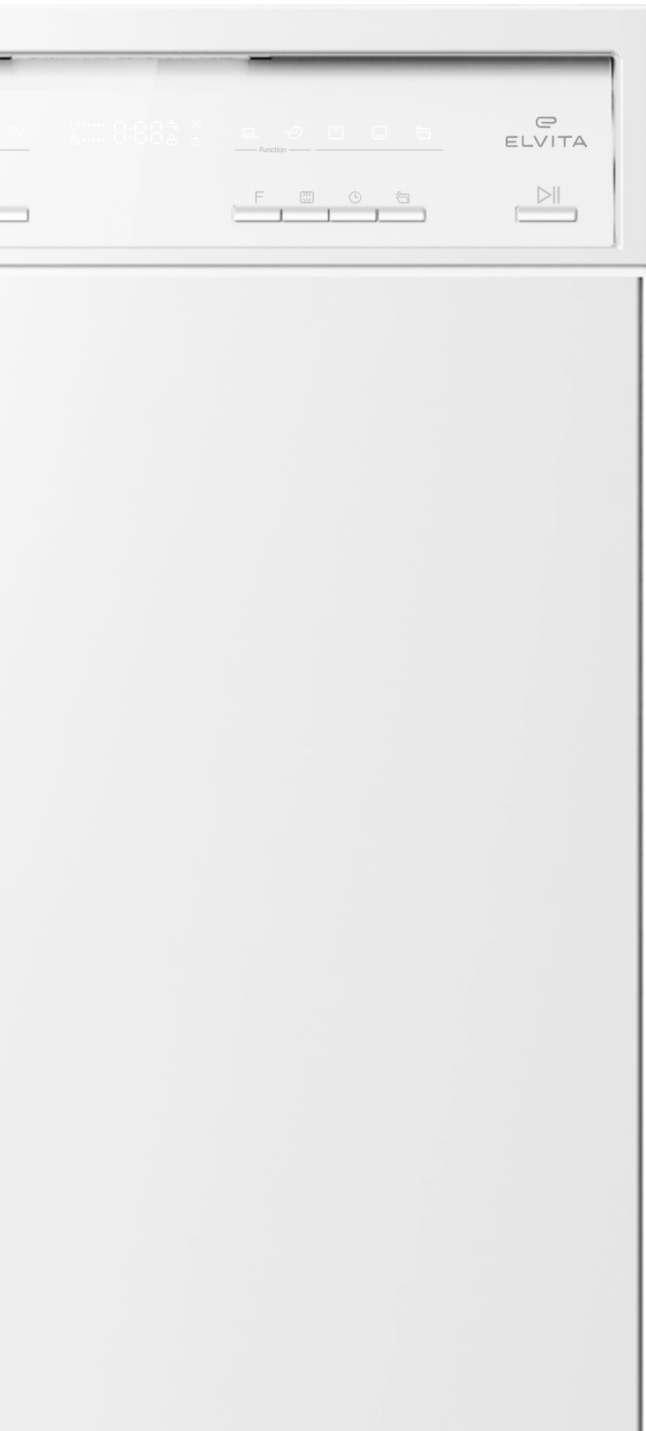

This dishwasher is designed with smaller households in mind, combining compact convenience with powerful performance. With 7 versatile programmes, you'll always find the right setting for everything from everyday dishes to tougher cleaning tasks. When you're in a hurry, the 30-minute quick wash gets your dishes spotless fast, saving you both time and effort. For even more flexibility, you can delay the start of any programme by up to 24 hours in 1-hour steps, making it simple to run a cycle exactly when it suits your schedule.

Smart programmes and functions

The dishwasher offers a wide range of programmes and settings to handle everything from delicate glasses and lightly soiled dishes to heavily soiled crockery. A built-in water softener helps prevent lime and mineral deposits, keeping your dishes spotless. For improved drying, the Auto open function automatically opens the door at the end of the cycle, which you can activate when needed.

Space for all your dishes

The machine has an upper and lower basket, a cup rack, and a cutlery basket. Fold back the cup rack and rack shelves to make room for larger utensils. This compact dishwasher gives you plenty of room for all your dishes.

Product properties

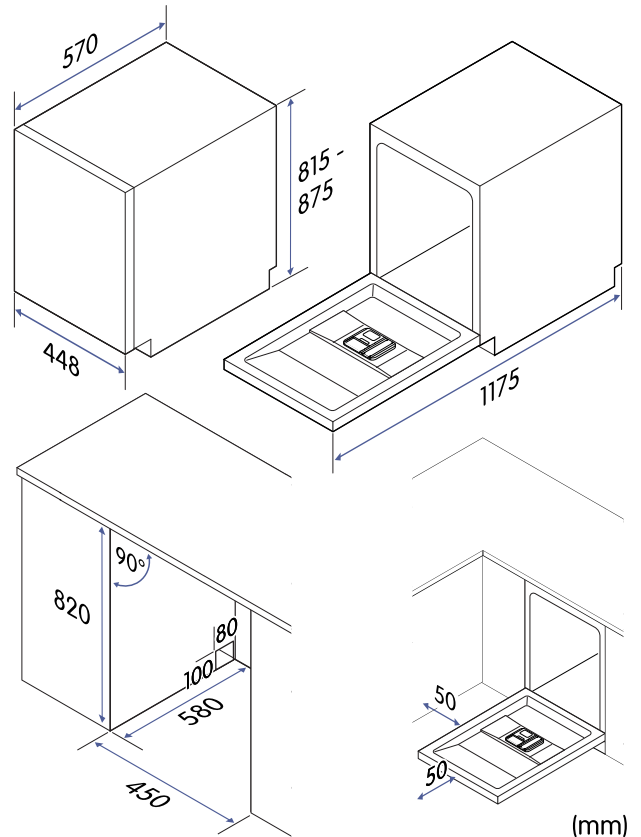

Colour	White
Installation	Built-under
Number of place settings	10
Number of programmes	7
Number of temperature settings	5
